BOOK SYNOPSIS

This guidebook on family-professional partnerships has been used as a go-to early intervention resource in university coursework, for inservice professional development, and as a support to families in (or considering) early intervention. This new edition has been completely revised to reflect recent research and respond to feedback that the author accumulated from users of the book, including practicing professionals and university instructors. With a focus on how families and professionals can collaborate effectively so that infants and toddlers (0-3) learn, grow, and thrive, chapters address: child learning and development, family functioning and priorities, early intervention as a support and not a substitute, and planning "what's next" after early intervention. Specific components of early intervention—evaluation and assessment, program planning, intervention implementation, service coordination, and transition—are also discussed. This hands-on resource uses stories of families in early intervention to illustrate key concepts and provides checklists that readers can use to assess their experiences in early intervention. "This guidebook is my go-to source with families, professionals, and students. The newest edition expands upon an already exceptional book with the most recent policy and evidence-based practice recommendations. I can't keep enough copies in my library." Susan Fowler, director, Illinois Early Intervention Clearinghouse "Supporting and empowering parents to help their infants and toddlers with delays and/or disabilities to learn and grow is key to future successes. Bonnie's Keilty's comprehensive work on the new edition of The Early Intervention Guidebook for Families and Professionals will help to insure that Part C Early Intervention around the country will stay focused on its work with and for families." Roxane Romanick, Founding Board Member Early Intervention Family Alliance
